

MACcrystal 8400 Pro™

Vibrant transparent colours

MACcrystal 8400 Pro™ is a glossy transparent coloured film designed for decorative markings of illuminated signs made from opaline acrylic sheets and for window applications. MACcrystal 8400 Pro™ is manufactured to guarantee uniform colour reproduction and is suitable for signcutting conversion methods.

The film is coated with a long-life durable, transparent acrylic pressure sensitive adhesive, which is protected with a high quality siliconized kraft paper liner. MACcrystal 8400 Pro™ Series is suitable for indoor and outdoor applications with a durability up to 3 years.

Key features

- Available in 10 bright colours
